This fee is non-refundable.

EXPECTATIONS

Here at St Peters Aquatics, we want to make things easy for you. With our purpose-built facility and qualified group of instructors, we have no doubt our program will give your swimmers the best experience, while gaining a valuable skill for life.

Our seamless layout looks like this: 4 weeks prior to your schools booking we need all class lists of students participating. Day 1 will be our assessment day. We will already have the swimmers put into groups based off the class roll, but will use the initial 15mins to ensure all swimmers are in the appropriate level. The class teachers will then receive a class grid outlining the swimmers' groups allowing a quick start for the remainder of the booking. This grid will allow teachers to organise their students into their correct groups before they enter the water at each lesson.

We will require a risk management plan (risk assessment) and please include all children you have with any disabilities, behavioral issues, and allergies. This helps us cater to the students' needs in any way that we can and allows us to know how to proceed in case of emergency.
